### Bachelor's of Engineering(EXTC) VIVA Institute of Technology/MU

07/2019 - 05/2023

8.83 CGPA

## WORK EXPERIENCE

### Web Developer | IT Trainer TechCryptors

06/2023 - Present

Mumbai

#### Achievements/Tasks

- "As a Web Developer Engineer at TechCryptors, I've contributed to backend and frontend design. I also provide Python and web design training to students."
- Web Developer:**
- Frontend Design:** Leading frontend design with HTML5, CSS3, and JavaScript to create intuitive, visually appealing UIs for enhanced UX.
- Django Development:** Implemented robust server-side logic using Django and PHP, incorporating RESTful APIs for efficient communication between the frontend and backend systems.
- Designed and optimized SQL databases, ensuring data integrity and writing complex queries for efficient data retrieval and manipulation.
- IT Trainer Role:**
- As an IT Trainer, I specialize in providing comprehensive training in c, c++, Java, and, Python programming and web design, covering HTML, CSS, and JavaScript also PHP language.

## ACHIEVEMENTS
